

Idler pulley (Z 119.065)

For cable transducers with cable thickness 0.8 - 1 mm

Article no: 11034114

Overview

- Idler pulley for cable transducers
- For angled and confined installation space
- For bridging corners and edges

Technical data

Technical data - mechanical design

Weight approx. 60 g

Description

Mountable idler pulley for cable transducer

Scope of delivery

Idler pulley

Suitable for

Cable transducer with cable thickness 0.8 mm to 1 mm

Dimensions
